

## Established Companies

On the Road to the Cloud – but which Road?

**Many large enterprise companies have concerns about moving to the cloud. You are not alone.**

**The Cloud can reduce cost and complexity, but you need a partner that has entrenched experience evaluating those issues on a large scale, [prosource.it](http://prosource.it) – is your resource.**

At prosource.it we work to understand your environment and develop a roadmap to guide the migration journey. Leveraging targeted solutions from Microsoft can often reduce cost and complexity while accelerating the use of cloud technology that brings maximum benefit to your business.

SOLUTIONS		
WHAT IT DOES FOR YOUR COMPANY	THE PRODUCT	HOW IT WORKS
Simplify your email environment	<b>Hosted Exchange Email</b>	A customized deployment and migration plan that includes the option of a fully supported end-state.
Reduce Risk, Manage Remote Workforce	<b>Enterprise Mobility Suite</b>	Accelerate your move to the cloud by employing robust identity and device management that includes advanced data protection and security analytics.
Reduce Traditional Backup Storage Costs	<b>Azure Backup</b>	Increase convenience through long term cloud-based retention of information with advanced features such as flexible deployment
Enhance your Company's Disaster Recovery Program	<b>Azure Site Recovery</b>	Providing fast, cost-effective recovery from a server or site failure across Windows and Linux servers and VM's.
Eliminate Costly, Embedded or Outdated PBX installations	<b>Cloud-Based PBX</b>	Make calls from any device, anywhere across the internet, with global deployment options and consolidated administrative management.
Cost-Effective Calling Plans	<b>PSTN Calling</b>	From Office 365 with existing or new phone lines.
Develop a Realistic and Executable Plan	<b>Cloud Migration Roadmap</b>	Recognizing certain limitations for moving systems to the cloud where possible and maximizing your IT operating investments.
